Our Mission

Founded in 1995 and opened to the public in 2003, the Children's Museum of the Lowcountry (CML) is a nonprofit dedicated to unlocking the potential of young children. We serve families with children from birth to age 10 by creating immersive environments and experiences that spark imagination, nurture curiosity, and inspire learning through the power of play.

At CML, play is more than fun—it is foundational. Our programs are thoughtfully designed to support early childhood development, blending science, environmental awareness, and the arts into meaningful, memorable learning experiences. Through free monthly programs and daily interactive opportunities, children arrive with anticipation, engage with wonder and laughter, and leave with new knowledge and lasting memories.

Each year, we welcome more than 100,000 visitors across two campuses, making CML a vibrant hub for early learning in our community. Our mission is to create innovative learning experiences—both within the museum and beyond—that equip and inspire children to become creative problem-solvers and lifelong learners.

Why Your Sponsorship Matters

Sponsorship of “A Night of Enchantment” supports hands-on exhibits, enriching programs, and inclusive access through discounted admission, memberships, and camp scholarships—ensuring all families can learn through play. It also elevates your brand by aligning it with one of Charleston’s most impactful nonprofits. Please see pages [05](#) and [06](#).

When you give to the Museum, you make it possible to:

- **Expand access through discounted admission**, ensuring more families—including those facing financial barriers—can experience the joy of learning through play.
- **Offer affordable memberships**, building a welcoming, inclusive community where every family can return, connect, and grow together.
- **Provide camp scholarships**, opening the door to enriching, hands-on experiences that inspire children from all backgrounds.
- **Extend learning beyond our walls**, empowering our educators to partner with Title I schools and ignite curiosity in classrooms across our region.
- **Foster inclusive experiences through our SuperStars! Program**, creating low-sensory play opportunities where children with learning differences and their families can explore comfortably and confidently.
